Education

University of Michigan, College of Engineering

Master of Science in Computer Science | GPA: 4.0/4.0

Ann Arbor, MI

May 2026

- Course Highlights: AI in Education, Engineering Interactive Systems, Compilers

Bachelor of Science in Computer Science, Magna Cum Laude | GPA: 3.7/4.0

December 2024

- Course Highlights: Algorithms, Operating Systems, Web Systems, Computer Organization

Awards/Honors: Best Paper in Track for Master's Thesis, Four terms University Honors, Two Terms Dean's List

University of Michigan Alternative Route to Certification

Teach For America: Michigan Department of Education Approved Alternative Certification Program

- Considered "Highly Qualified" under state licensure law
- Interim Teaching Certificate in Secondary General Science August 2026

Relevant Experience

Secondary Science Teacher

Teach For America, Pre-Service and Practicum

Detroit, MI

June - July 2026

Selected as one of 4,000+ accepted candidates out of 40,000+ applicants to teach in an urban or rural school district across the nation. In the summer of 2026, will have:

- Completed an intensive 160+ hour educator training program
- Developed long-term lesson plans grounded in Universal Design for Learning (UDL) principles, aligned to Common Core State Standards
- Engaged in professional development on learner variability, differentiated instruction, and social-emotional competencies

Lead Exam Instructional Assistant (C++)

Intro Programming and Data Structures (2023-2026), Computer Organization (Summer 2025)

Ann Arbor, MI

January 2023 - April 2026

- Directed weekly lab sessions for groups of 30+ students; **94% student approval rating**
- Collaborated with professors to develop and distribute exams for **1,000+ students per term**
- Guest lectured a 90-minute session for a 100-student undergraduate class

Teaching Assistant (Python)

Detroit Area Pre-College Engineering Program, NTier Training

Detroit, MI

June 2024 - August 2024

- Developed in-class exercises to reinforce content for the PCEP-30-02 Certification Exam
- Provided individualized student support; oversaw a **near 200% increase** in passing exam scores from previous year

Projects & Research

- **PointerPal** (2025). Interactive learning tool for beginner C++ students to visualize the call stack. AI integration for question generation, worked examples, and deliberate practice opportunities. *Django, Javascript*
- **Downstream Effects of Generative AI Over-Reliance in Introductory Computer Science** (WIP, in prep for SIGCSE '27) Used personal TA course knowledge to determine indicators of improper AI usage. Observing trends in gpa, assignment scores, and other demographics over time. *Pandas, Seaborn*

Skills & Interests

- **Programming Languages:** C, C++, C#, Python (NumPy, Pandas), Java, JavaScript.
- **Technical Skills:** AI integration, Web Development, Video Game Development.
- **Soft Skills:** Exam development and pedagogy, AI best practices in education.
- **Activities:** Former Michigan Marching Band Clarinetist. Former member of the Fanfare Band and University Band.
